

Treasurer's Report

January 2012

We operated at a profit in 2011, mainly because we didn't have an attendee to the world service conference.

In the year 2011 we picked up some momentum, and increased our public information outreach . We have more plans for this year, and as such we need to get a budget put together, sooner rather than later. I will get this info together for discussion, and ready for our March meeting.

Our January contributions for January consisted of three groups, so imagine the next few months will show a rise in contributions, and we will need this continued support to do the things we propose.

Our current cash balance is \$ 6604.82
